Club Project Corner

The wigeon class project will be completed in the next couple of weeks, thanks to Don Osman.

Carved, but not yet painted, by Roger Westgate.

Work in progress for class by Betsy Elswit.

The next class project will be taught by Betsy Elswit and will be a Santa relief carving. We may for the first time be able to complete a holiday carving before the holiday. Signup for Betsy's class is ongoing, and the class start is planned for August 26th.

Ticket sales

Pre-sales of end table raffle tickets continues. These sales provide the club with the ability to put on the annual carving show. Rent for the fire hall, tent, tables, chairs and other expenses are all funded through these ticket sales. Thank you for your efforts to fund the club.

Tabouret table by Ches Spencer for the raffle.

Annual Picnic September 8

The Catatonk Valley Carving Club annual picnic is planned for September 8. The club supplies a meat platter and coffee, and has reserved the pavilion in the Bo Meyers park in Candor. The park is located close to the High School in Candor. Call for directions as needed.

You should bring family and friends as desired, as well as a dish to pass and your picnic tableware. Do not forget to bring some carving tools as there will be a whittling competition.
