Carving Club Annual Picnic

The Catatonk Valley Woodcarvers Picnic will be held on August seventeenth at Bo Moyer Park in Candor. Please bring your own tableware and a "dish to pass". Bring carving equipment as there will be a whittlin' competition.

Betsy Elswit

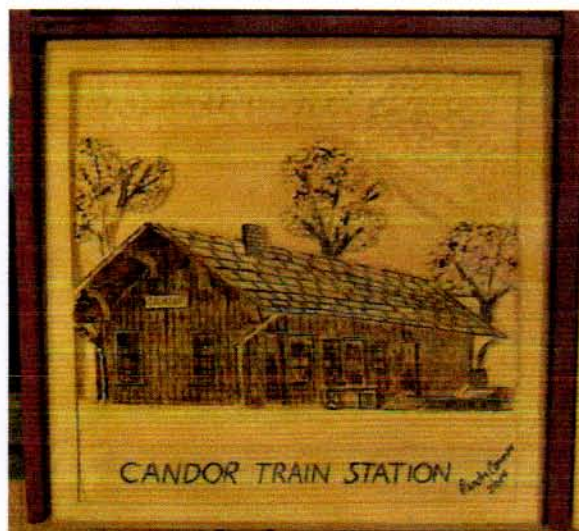

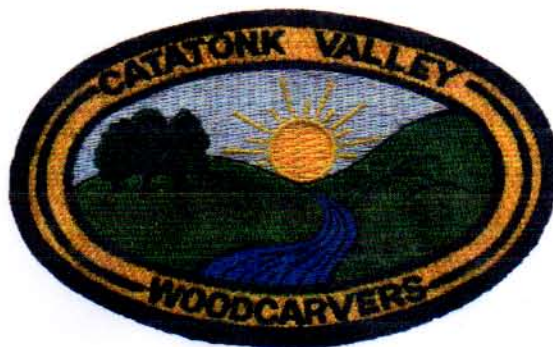

Club Project Corner

River otter projects are looking good, thanks to the efforts of Roger Westgate. Roger will complete this project by demonstrating the painting of the figure.

Dick Rogers is helping us relief carve a nine by twelve depiction of a farm scene with barns and silos and a tree in the foreground.

Woodcarving Show Prep

The first meetings for the woodcarving show are being held this month. If you have inputs to how the show is planned, either voice them to a committee member, or better yet check and find the next meeting and attend.

Randy Connor

Work on the raffle item is proceeding (I have to get busy on mine). The three you see here are a few completed inputs. Club members are woodburning or relief carving the five-inch squares with local interest sights: old barns, buildings, covered bridges, i.e. sights that they have appreciated in their local community.
