

Catatonk Valley Woodcarvers

June 2013

For Newsletter inputs: davebaldwin1@juno.com

Web Site: catatonkvalleywoodcarvers.org

Web inputs: edriver@stny.rr.com

Club Project Corner

Don Osman is teaching the club a male American Wigeon. The bird will make another in our series of miniature water fowl. The carving is about eight inches long and almost four inches high. Thanks, Don, for your help in this.

Previous raffle project, carved ornaments with wood box.

Carving Show Project

Thanks to all those who have sold tickets for the raffle project, which is an interchangeable, four-season, carved and burnt, wooden tile, endtable. The tiles were made by the club members, and the table was constructed by Ches Spencer. Ed Fabrizio is again heading up the ticket sales, and encourages us to sell as many tickets before the show as is possible. This is our main fundraiser during the year and pays all the expenses for the annual show, as well as this newsletter, and any other projects the club completes.

Previous raffle project manger scene.

Previous raffle item circus figures.

Web Site Inputs

Sue Driver has recently been schooled in computer operation of web sites, and has volunteered to take over the current Catatonk Web site. The look of the web site is the same as before; but there have been a few changes, and it is worth taking a look again.

If you have a desire to have a link from the Catatonk web site to yours, then contact Sue at our normal Monday night meeting, or by contacting her at her email address : edriver@stny.rr.com.
